Product Details

THE LEADING MANUFACTURER OF PERSONAL AND RESPIRATORY PROTECTIVE EQUIPMENT

Supplied-Air Blouse Respirator NIOSH Approved (N.A. Part #: ASIMB023*)

Respirex Supplied-Air Respirators offer protection from airborne contaminants that are not immediately dangerous to life or health (IDLH).

This product has Type C Continuous Flow Class NIOSH Approval No: TC-19C-378. The blouse is manufactured from fluorescent red (orange) neoprene and is fitted with a double glazed rigid visor with a removable outer visor. An open ended gas tight zip is fitted from the neck to the waist and the blouse also includes quick disconnect air-line fittings.

Respirex locking cuff system is fitted to accommodate most chemical protective gloves. A waist belt is fitted externally to provide a closure to the bottom of the blouse.

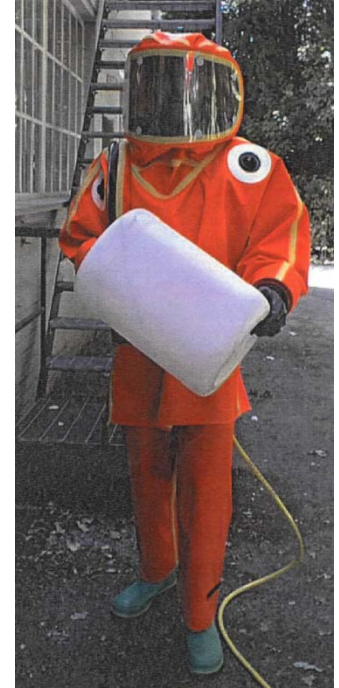

Product Features

- 3 point hanging system which helps prevent distortion of the visor during storage.
- An air system contained within the hood that provides breathing air to the wearer. An internal, adjustable waist belt supports the air system. The belt is fitted with a foam back pad for increased comfort.
- Twin exhalation valves.
- Can be used at between 12psi and 39psi (dependent on air supply hose length).
- Air flow is between 170 l/m (6CFM) and 280 l/m (10CFM).
- Externally taped seams.
- Gas tight zipper
- Double glazed visor with removable outer scratch visor
- Thread locking cuff system

Important Notes

This respirator is designed to work with 3/8" bore hose of four different specified lengths or the hose reel as detailed in the user instruction manual. Supplied breathing air must meet the requirements of Type 1 Gaseous Air described in the Compressed Gas Association Commodity Specifications G-7.1 (Grade D or higher quality), as specified by Federal Law 42 CFR, Part 84 Sub Part J.

Failure to use complete NIOSH Approved Respirex components and replacement parts voids approval of the entire assembly.
