

MFC International Catch Bags are designed to be used in conjunction with our Air Bags and Air Cushions during the uprighting of vehicles or objects. The Catch Bags prevent a rapid and dangerous decent which prevents further damage to the vehicle or object being lifted and allows for a safer environment for the recovery team.

- Quick setup, inflation and deflation
- Replaceable protective cover
- Webbing loops assist with lifting and positioning the bags
- Universal inflation sock
- Strong and durable
- Multiple Catch Bags may be used for larger vehicles or objects
