

0.5 Bar High Lifting Cushions

MFC comprehensive range of 0.5 bar pressure high lifting cushions for recovery

- Lightweight and portable
- Provide a strong and steady lift to stabilize a vehicle and improve access to casualties
- These cushions have a large contact area which means they uniformly distribute lift pressure across a large surface area, making them suitable for lifting at points of a vehicle such as the roof, sides, wings, bonnet and boot
- Exceptionally Stable
- Strong and Durable
- Non Slip surface
- Webbing loops assist with lifting and positioning the cushions, and can be used as anchorage points
- Low maintenance costs
- Large lift capacity and height
- Controlled deflation capability

Used For:

- *Uprighting Trucks*
- *Animal Rescue*
- *Aircraft*
- *Large heavy soft-sided loads of all types*

Technical Data	120	180	213
Product Code	LB0014	LB0072	LB0013
Area Dimensions (inches)	53"x53"	57"x57"	57"x57"
Inflated Height (feet)	4'	6'	7'
Deflated Height (inches)	2"	2"	2"
Max. Pressure (psi)	7	7	7
Lift at Max Pressure (kg)	8 tons	10 tons	10 tons
Air Requirements (cu. ft.)	88ft ³	102ft ³	184ft ³
Packed Weight (lbs)	85	89	107

Type 120, 180, & 213 bags feature 5mm thick 3 ply working surfaces with two rings fitted to both top and bottom working surfaces for securing
